

THE KILLER ASTEROID

Situation:

An asteroid is hurtling towards Earth that will destroy humanity and leave the planet uninhabitable for three years. Fortunately scientists and engineers have created a bunker that will sustain seven individuals long enough for them to be able to repopulate the Earth in the near future. This bunker contains all the necessary material, supplies, and animals required for survival and repopulation. After the asteroid hits these seven individuals will be the only humans left on Earth.

As a member of a selection committee it's your responsibility to choose these seven individuals from a list of twelve finalists. These seven survivors will be responsible for carrying on the history and culture of the human race.

12 Survivors:

1. Allen – Is an atheist, retired medical doctor, general practitioner and chief of Surgery at MD Anderson for past 25 years.
2. Belle – Elementary school teacher, aptitude for cooking, sewing, and a great multi-tasker, diagnosed with ovarian cancer 10 years ago. She has been in remission for 2 years.
3. Manuel – Member of Dallas PD SWAT, Army vet, did two tours during Iraqi Freedom, lifelong hunter and survivalist, has been known to have a short temper and lash out at others.
4. Sally – Native American, athletic, gold and silver medal winner in 2008 Olympics in track and field, however all of her medals were taken away because she was caught doping (cheating) She has recently opened a training facility for underprivileged youth athletes.
